Distinct Design

When updating their kitchen and three baths, an Eden Prairie family chose eye-catching patterns and bold designs to create a one-of-a-kind look.

BEFORE

The homeowners loved to cook – but hated their kitchen. The finishes and appliances were tired and dated, but the biggest problem was space. When two people were in the kitchen at once, it was so tight they could barely get past each other. It was time to remodel.

To maximize space and open the floor plan, the wall between the kitchen and dining room was removed. All the windows were enlarged to let in light and make the home feel bigger. When choosing a countertop for their rounded island with seating, they selected a vibrant and eye-catching striped quartz.

The homeowners chose Plekkenpol Builders to remodel their dated kitchen because of the company's history and longevity in the Twin Cities.

Basement Bath

In the basement bath, the tub was replaced by a luxury shower with brick glass mosaic wall tile, polished marble flooring and a custom sliding glass shower door. A small tempered glass window in the shower allows light to enter and makes the room feel more spacious. It also provides a ledge beneath the shower head for toiletries.

Three Bathrooms, Three Striking Designs

Some homeowners shy away from using vivid patterns for countertops and tile, preferring to stick with white or neutral (and leave the adventurous choices for paint or accessories). Not this family! They opted for lively patterns that their kids picked out to brighten the rooms and leave a big impression.

The shower's glass mosaic wall tile is cool, calm and contemporary with its mix of subtle blues, grays and whites. Polished marble mosaic floor tile and built-in shelves are sleek and refined and perfect for the master suite.
